GENIUS AND WORK - Young people are inclined to believe that it a puson has genius he need not work to win success. But the truth is that genius shows itself in the labor to which it mig sits possissor. The authors and artis.s, the neters and orators, who have in de their mark. have, whatever else they possessed, had the power to labor long and hard in their chosen have, whatever else they possessed, had the power to labor long and hard in their chosen calling. Thackeray says of Lord Macaulay that "he reads twenty blocks to write a sentence; he travels a hundred unless to make a line of description." The flowing periods and the exact pen pictures of the great historian were the result of constant pains taking and unwearted labor. Michael Angelo was, up to the last years.

I am acquainted with the proprieters, and many of the gentlemen whose signatures are many of the gentlement and perfect and permanent cures in every case.

Warren, of J. W. Lathron & Co. Ct., J. I. Warr b r. Michael Angelo was, up to the last years of his long life, an industrious sculptor and pointer. Turner, the finest English landse. p. painter of this generation, wo ked constantly at his art. The power of the actor and crator demands training to be of use. "Acting," said the eider Kean, "does not, like Dogberry's reading and writing, "come by nature," The same might be said of the cratory of Wend-life and standing the foreign certificate. Genius wi neut hard labor usually previs a carse to him who has it. Genius with labor may perform wonders.
